

FIRELOCKTM INSTALLATION-READY FITTINGS

THE MOST INNOVATIVE CHANGE TO
FIRE PROTECTION FITTINGS SINCE VICTAULIC
ORIGINATED THE GROOVED CONCEPT.

THE WORLD LEADER IN PIPE JOINING SOLUTIONS

INSTALLATION-READY™ MEANS FAST, DEPENDABLE NO-NONSENSE PRODUCTIVITY.

- Pre-assembled, ships ready to install
- 1¼ – 2½" | DN32 – DN65
- For services up to 365 psi | 25 bar

FM Approved, cULus, VdS and
LPCB Listed for fire systems.

REDUCE INSTALLATION TIME

Installs up to 10 times faster
than threading

- Eliminate the work of pipe wrenches
- No tape, no dope, no mess
- Eliminate the set-up and clean-up of the threader
- No need to change cutting dies
- No cutting oil

Up to 4 times faster than
traditional couplings and fittings

- Tee: **22 pieces vs. 1 piece**
- Elbow: **15 pieces vs. 1 piece**
- No need for lubricant
- Fewer bolts and nuts
- Once up and down the ladder
- No disassembly

260 →
loose parts

NO LOOSE PARTS

- Eliminate the time needed to look for an extra coupling or bolt
- Reduce the number of times up and down the ladder or lift

SMALLER TAKEOUT DIMENSIONS

Save space – reduce your take-out dimensions

- Up to 45% shorter take-out than traditional coupling/fitting assembly
- Fits in tighter ceiling spaces
- One-piece leaves a free hand

AVOID THE COST OF INTERNAL GALVANIZED FITTINGS

- No wetted metal eliminates corrosion
- No need for galvanized fittings to address internal corrosion

BUILT IN “WRENCH FEEL”

Same “wrench feel” as the Style 009N and Style 005 couplings to assist in proper assembly with hand or power tool.

- Visual inspection ensures correct bolt pad to bolt pad assembly
- Minimize installation effort

INNOVATION AT A GLANCE

90° Elbow
No. 101

45° Elbow
No. 103

Tee
No. 102

Close Nipple
No. 143

Pre-Assembled Fitting

Up to 34% fewer fasteners to tighten

Pre-Lubricated Gasket

Eliminates over lube which can cause nuisance, call backs, drips, property damage

Rigid Pipe Stop

Ensures proper engagement

One-Piece Integral Fitting Gasket

Lower friction loss than threaded or traditional grooved end fittings

Bolt Pad to Bolt Pad Assembly

Victaulic "visual inspection" designed in to ensure correct assembly

Two-Piece Housing Design

Eliminates up to three joints, minimizing risk

Pre-Assembled Hardware

Same size socket for Victaulic FireLock couplings and fittings 1¼–2½"

Nylon patched fastener design eliminates lost parts

Low-Profile Design

Up to 45% shorter take-out than traditional coupling/fitting assembly
