## **REACH Regulation Policy Statement**

---

In support of Victaulic's compliance obligations specific to the REACH chemical safety regulation, the following summarizes our policy in accordance with Article 33 (Duty to communicate information on substances in articles) of Regulation EC No. 1907/2006 of the European Parliament and of the Council of 18 December, 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) as enacted on 1 July, 2007.

As part of Victaulic's ongoing commitment to environmental health and product safety, we have established a review process to identify the presence of any Substance of Very High Concern (SVHC) in our products, as well as those supplied by external sources. Additionally, we and our suppliers have taken the necessary steps to modify formulations or make appropriate substitutions when necessary to ensure conformity with the REACH Regulation.

Additionally, as the ECHA Candidate List is updated semi-annually with additional SVHC's, Victaulic conducts ongoing research, both internally and with our external suppliers to ensure full compliance with the most up-to-date SVHC List, as well as any other revisions to the REACH Regulation. We are continuously developing new methods for collecting and archiving this information to ensure our customers receive timely responses to their REACH compliance inquiries.

Questions regarding this policy may be directed to Victaulic's Global Regulatory Compliance department.

A handwritten signature in black ink, appearing to read "R. Bucher".
